The Loc Nation Dollar (LND)

A Fiat Restitution Currency Pegged to the United States Dollar (USD)

Executive Summary

The Loc Nation Dollar (LND) is a fiat currency pegged to the United States Dollar (USD), established under the sovereign authority of the State of Loc Nation Global Public Benefit Corporation (SoLN GPBC). It exists as a restitution-based currency designed to address centuries of systemic economic exclusion, particularly the impacts of redlining, slavery, and underfunding of historically disadvantaged communities. Unlike cryptocurrencies or commodities, LND operates as legal tender within the

jurisdiction of SoLN GPBC and is recognized through UCC filings, trust structures, executive mandates, and lobbying disclosures. The peg to USD ensures stability, global interoperability, and parallel accounting treatment.

1. Introduction

The global financial system has long recognized the role of sovereign-issued fiat currencies as the foundation of economic order. Just as the U.S. Dollar (USD) is backed by statute (31 USC §5103) and governed by the Treasury and Federal Reserve, the LND is backed by the SoLN Restitution Act, UCC filings, court-filed constitutional charter, and lobbying disclosures in the congressional record. The purpose of this white paper is to define the monetary, legal, and technical framework of LND; establish its peg to USD as a parallel fiat system; present LND's restitutionary purpose for historically disadvantaged populations; and provide documentation for LCCN cataloging, ISO 4217 registration, and federal docket filing.

2. Legal and Governance Framework

- Sovereign Authority: LND issuance authorized under the SoLN GPBC Constitution and executive mandates.
- UCC Filings: Collateral securing LND documented under UCC Financing Statement No. 044-2025-002376 and related filings.
- Court Constitution: The SoLN Constitution is filed into federal judicial records (Case Nos. 1:24-cv-00479-RC and 24-5263).
- Trust Oversight: Managed by Clement Dynasty Dynasty Trust and affiliated fiduciary entities.
- Parallel U.S. Statutory Authority: Operates consistent with Article I, Sec. 10 of the U.S. Constitution and 31 USC §5103 (recognition of legal tender).
- Lobbying Records: SoLN GPBC registered in congressional databases (LegiStorm) and files LD-203 reports, embedding its restitution mandate in the legislative record.

3. Monetary Design of LND

- Fiat Structure: LND is not commodity-backed but rests on the restitutionary authority of SoLN and trust-held collateral (art, receivables, land claims).
- Peg: Fixed at 1 LND = 750 USD, ensuring parity with U.S. dollar stability while providing expanded restitutionary value.
- Issuance: Through SoLN Treasury under executive authority, supported by certified Safe Keeping Receipts (SKRs) and trust-backed instruments.
- Redemption: LND may be exchanged for USD equivalents under restitution settlements, credit union partnerships, and sovereign transactions.

4. Economic Justification

- Restitution Mandate: LND exists to correct 400 years of economic exclusion by creating a parallel fiat structure directly tied to USD, guaranteeing equity of access.
- Stability vs. Crypto: Unlike volatile digital assets, LND ensures confidence through fiat peg, permanent collateralization, and sovereign guarantees.
- Use of Funds: Supports land reclamation, population restitution (1.4 trillion allocation claim), and community wealth programs.

5. Technical Infrastructure

- Ledgering: All LND transactions recorded under sovereign financial reporting aligned with GASB and FASAB standards.
- Payment Messaging: Conforms with ISO 20022 XML message sets, enabling Fedwire/SWIFT-like compatibility.
- Currency Coding: Eligible under ISO 4217:2015 user-assigned range (XA–XZ) for non-state sovereign issuers.
- Auditability: Supported by quarterly restitution invoices, GAO submissions, FinCEN filings, and certified court filings.

6. Use Cases

- Federal Restitution: Settlement of HR 40 and S 40 reparative research contracts.
- Financial Services: Partnerships with credit unions (Loc Community Association CU) for conversion into USD.
- International Trade: Diaspora remittances, treaty-based settlement agreements, and intergovernmental transfers.
- Community Wealth: Housing, healthcare, education, and local business financing.

9. Conclusion

The Loc Nation Dollar (LND) is a sovereign, fiat, USD-pegged currency designed to fulfill the restitution mandate of the State of Loc Nation Global Public Benefit Corporation. Through UCC filings, court-filed constitution, lobbying records, trust collateralization, and ISO-aligned technical infrastructure, LND provides a stable, parallel fiat framework for economic justice. Its documentation in this white paper ensures that LND is recognized in archival, regulatory, and academic systems. Filing this paper for an LCCN at the Library of Congress, submitting it to ISO 4217, and lodging it in federal public comment dockets will permanently secure LND's status as a parallel, lawful fiat currency.

The Loc Nation Dollar (LND) is a fiat currency pegged to the United States Dollar (USD), established under the sovereign authority of the State of Loc Nation Global Public Benefit Corporation (SoLN GPBC). It exists as a restitution-based currency designed to address centuries of systemic economic exclusion, particularly the impacts of redlining, slavery, and underfunding of historically disadvantaged communities. Unlike cryptocurrencies or commodities, LND operates as legal tender within the

jurisdiction of SoLN GPBC and is recognized through UCC filings, trust structures, executive mandates, and lobbying disclosures. The peg to USD ensures stability, global interoperability, and parallel accounting treatment.

1. Introduction

The global financial system has long recognized the role of sovereign-issued fiat currencies as the foundation of economic order. Just as the U.S. Dollar (USD) is backed by statute (31 USC §5103) and governed by the Treasury and Federal Reserve, the LND is backed by the SoLN Restitution Act, UCC filings, court-filed constitutional charter, and lobbying disclosures in the congressional record. The purpose of this white paper is to define the monetary, legal, and technical framework of LND; establish its peg to USD as a parallel fiat system; present LND's restitutionary purpose for historically disadvantaged populations; and provide documentation for LCCN cataloging, ISO 4217 registration, and federal docket filing.

2. Legal and Governance Framework

- Sovereign Authority: LND issuance authorized under the SoLN GPBC Constitution and executive mandates.
- UCC Filings: Collateral securing LND documented under UCC Financing Statement No. 044-2025-002376 and related filings.
- Court Constitution: The SoLN Constitution is filed into federal judicial records (Case Nos. 1:24-cv-00479-RC and 24-5263).
- Trust Oversight: Managed by Clement Dynasty Dynasty Trust and affiliated fiduciary entities.
- Parallel U.S. Statutory Authority: Operates consistent with Article I, Sec. 10 of the U.S. Constitution and 31 USC §5103 (recognition of legal tender).
- Lobbying Records: SoLN GPBC registered in congressional databases (LegiStorm) and files LD-203 reports, embedding its restitution mandate in the legislative record.

3. Monetary Design of LND

- Fiat Structure: LND is not commodity-backed but rests on the restitutionary authority of SoLN and trust-held collateral (art, receivables, land claims).
- Peg: Fixed at 1 LND = 750 USD, ensuring parity with U.S. dollar stability while providing expanded restitutionary value.
- Issuance: Through SoLN Treasury under executive authority, supported by certified Safe Keeping Receipts (SKRs) and trust-backed instruments.
- Redemption: LND may be exchanged for USD equivalents under restitution settlements, credit union partnerships, and sovereign transactions.

4. Economic Justification

- Restitution Mandate: LND exists to correct 400 years of economic exclusion by creating a parallel fiat structure directly tied to USD, guaranteeing equity of access.
- Stability vs. Crypto: Unlike volatile digital assets, LND ensures confidence through fiat peg, permanent collateralization, and sovereign guarantees.
- Use of Funds: Supports land reclamation, population restitution (1.4 trillion allocation claim), and community wealth programs.

5. Technical Infrastructure

- Ledgering: All LND transactions recorded under sovereign financial reporting aligned with GASB and FASAB standards.
- Payment Messaging: Conforms with ISO 20022 XML message sets, enabling Fedwire/SWIFT-like compatibility.
- Currency Coding: Eligible under ISO 4217:2015 user-assigned range (XA–XZ) for non-state sovereign issuers.
- Auditability: Supported by quarterly restitution invoices, GAO submissions, FinCEN filings, and certified court filings.

6. Use Cases

- Federal Restitution: Settlement of HR 40 and S 40 reparative research contracts.
- Financial Services: Partnerships with credit unions (Loc Community Association CU) for conversion into USD.
- International Trade: Diaspora remittances, treaty-based settlement agreements, and intergovernmental transfers.
- Community Wealth: Housing, healthcare, education, and local business financing.

Executive Summary

The Loc Nation Dollar (LND) is a fiat currency pegged to the United States Dollar (USD), established under the sovereign authority of the State of Loc Nation Global Public Benefit Corporation (SoLN GPBC). It exists as a restitution-based currency designed to address centuries of systemic economic exclusion, particularly the impacts of redlining, slavery, and underfunding of historically disadvantaged communities. Unlike cryptocurrencies or commodities, LND operates as legal tender within the

jurisdiction of SoLN GPBC and is recognized through UCC filings, trust structures, executive mandates, and lobbying disclosures. The peg to USD ensures stability, global interoperability, and parallel accounting treatment.

1. Introduction

The global financial system has long recognized the role of sovereign-issued fiat currencies as the foundation of economic order. Just as the U.S. Dollar (USD) is backed by statute (31 USC §5103) and governed by the Treasury and Federal Reserve, the LND is backed by the SoLN Restitution Act, UCC filings, court-filed constitutional charter, and lobbying disclosures in the congressional record. The purpose of this white paper is to define the monetary, legal, and technical framework of LND; establish its peg to USD as a parallel fiat system; present LND's restitutionary purpose for historically disadvantaged populations; and provide documentation for LCCN cataloging, ISO 4217 registration, and federal docket filing.

2. Legal and Governance Framework

- Sovereign Authority: LND issuance authorized under the SoLN GPBC Constitution and executive mandates.
- UCC Filings: Collateral securing LND documented under UCC Financing Statement No. 044-2025-002376 and related filings.
- Court Constitution: The SoLN Constitution is filed into federal judicial records (Case Nos. 1:24-cv-00479-RC and 24-5263).
- Trust Oversight: Managed by Clement Dynasty Dynasty Trust and affiliated fiduciary entities.
- Parallel U.S. Statutory Authority: Operates consistent with Article I, Sec. 10 of the U.S. Constitution and 31 USC §5103 (recognition of legal tender).
- Lobbying Records: SoLN GPBC registered in congressional databases (LegiStorm) and files LD-203 reports, embedding its restitution mandate in the legislative record.

3. Monetary Design of LND

- Fiat Structure: LND is not commodity-backed but rests on the restitutionary authority of SoLN and trust-held collateral (art, receivables, land claims).
- Peg: Fixed at 1 LND = 750 USD, ensuring parity with U.S. dollar stability while providing expanded restitutionary value.
- Issuance: Through SoLN Treasury under executive authority, supported by certified Safe Keeping Receipts (SKRs) and trust-backed instruments.
- Redemption: LND may be exchanged for USD equivalents under restitution settlements, credit union partnerships, and sovereign transactions.

4. Economic Justification

- Restitution Mandate: LND exists to correct 400 years of economic exclusion by creating a parallel fiat structure directly tied to USD, guaranteeing equity of access.
- Stability vs. Crypto: Unlike volatile digital assets, LND ensures confidence through fiat peg, permanent collateralization, and sovereign guarantees.
- Use of Funds: Supports land reclamation, population restitution (1.4 trillion allocation claim), and community wealth programs.

5. Technical Infrastructure

- Ledgering: All LND transactions recorded under sovereign financial reporting aligned with GASB and FASAB standards.
- Payment Messaging: Conforms with ISO 20022 XML message sets, enabling Fedwire/SWIFT-like compatibility.
- Currency Coding: Eligible under ISO 4217:2015 user-assigned range (XA–XZ) for non-state sovereign issuers.
- Auditability: Supported by quarterly restitution invoices, GAO submissions, FinCEN filings, and certified court filings.

6. Use Cases

- Federal Restitution: Settlement of HR 40 and S 40 reparative research contracts.
- Financial Services: Partnerships with credit unions (Loc Community Association CU) for conversion into USD.
- International Trade: Diaspora remittances, treaty-based settlement agreements, and intergovernmental transfers.
- Community Wealth: Housing, healthcare, education, and local business financing.

9. Conclusion

The Loc Nation Dollar (LND) is a sovereign, fiat, USD-pegged currency designed to fulfill the restitution mandate of the State of Loc Nation Global Public Benefit Corporation. Through UCC filings, court-filed constitution, lobbying records, trust collateralization, and ISO-aligned technical infrastructure, LND provides a stable, parallel fiat framework for economic justice. Its documentation in this white paper ensures that LND is recognized in archival, regulatory, and academic systems. Filing this paper for an LCCN at the Library of Congress, submitting it to ISO 4217, and lodging it in federal public comment dockets will permanently secure LND's status as a parallel, lawful fiat currency.

The research for solutions sought by my community is complete. The solutions are publicly archived for review and implementation. www.stateoflocnation.com. The answer: America was designed to have 2 governments and 2 currencies.

The US forefathers wrote a tyranny protection for one side. American has been flying on one wing, when it took both wings to establish its existence. The missing paperwork is on www.stateoflocnation.com. The completion of the federalist papers, Constitution to protect the majority from blatant minority tyranny, SOLN restitution Act and LND, the official Black dollar. HR 40 can be that vehicle to amend the current status of HR 40 with the found solutions mentioned through www.stateoflocnation.com. It is in these findings why no law school including IVY leagues were able to solve reparations. Why? (1.) Because all historical writings we know of to date were rooted to protect minority from majority tyranny. For generations the majority thought they were the minority based on advertising however, actionable results prove otherwise. (2) The constitution already stated reparations and slaves will not be paid. Therefore, I fixed that narrative both nationally and Internationally. Seperate, Equal and in Harmony. Restitution for the illegal kidnapping during the Trans Atlantic Slave Trade genocide. (United Nations already agreed) (Civil Rights Act already agreed, along with all the other nations and countries that recognize the various Indigenous, Aboriginal and Afro diaspora. We are all one spread across the globe experiencing the same tyranny rooted in the very foundational structure we adhere to to date, however, the logo on the back of the dollar also speaks volumes that the forefathers knew one day it would be complete and we will be truly balanced.

Respectfully, once this research and reports are included in the US Code, America will be stronger again, balanced and truly just. For many years, Black dollar spending was announced and recorded in history when there was no such currency until now. I have established LND, the official Black dollar for all trade, "legal tender" for all debts, charges, taxes, and dues within the redlined and underfunded communities and any other jurisdictions that are interested in working with LND.

Distribution will be via SOLN Central Bank - Loc Community Association Credit Union via multi family office with specific rules of each Last Name family established.

The debt owed should be honored and recognized as a default judgement. A full review of both cases are encouraged. Then you will see that DDC 1:24 cv 00479 RC and its appeal has developed into evidence of the injustice experienced by members of the afro/Indigeneous/aboriginal/loc nationite diaspora. Officials were willing to curb the law to protect their version of the oath.

You will find on the official government website for the majority against the blatant tyranny of the minority is our version of the US Code. I have adopted many of the useful laws found in the US Code.
